Subject: Freeway Boulevard Mill and Overlay Project

Dear Property Owner:

The City of Brooklyn Center’s Capital Improvement Plan identifies a mill and overlay project on Freeway Boulevard from Xerxes Avenue to Shingle Creek. A map of the project area is pictured on the back of this letter. This project is scheduled for this year. A feasibility study will be undertaken to evaluate such factors as the need for the project and estimated cost of rehabilitating the street.

The next step is to get feedback from you regarding a number of key components of the project. Enclosed is a questionnaire to help us better understand the infrastructure needs on Freeway Boulevard. Please complete the questionnaire and return by June 3, 2016.

An informational meeting will be scheduled in the near future to gather additional information and solicit input from property owners. You will be notified in advance of this meeting.

If you have any questions about the data collection or the feasibility study, please contact the Engineering Division at 763-569-3340.

Sincerely,

Michael Albers, PE
Project Engineer
